Fish dishes a speciality, but the vegetable antipasti are magnificent, too. Superb desserts. Good wine list.

(A note on the "Regions" into which establishments are divided: for our regional or country guides these currently follow the way the CHAPTERS are divided, so if you click on Region above the drop down list you see shows the chapter headings in the guide. We are working on adding some interactive mapping to make it easier to locate a recommended hotel or restaurant in the area where you are going to be.)
